FOR RESTORING GRAY :: Ir is a most agreeable dressing, which

is at once harmless and effectual, for preis at once narraess and energia, for pre-ferring the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep hack, as may be desired. By its use thin hair is thickened, and though not always cured. It checks falling of the hair immediately, and causes a new or the mar immediately, and causes a new growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable. The Vicion cleanses the scalp, cures and

prevents the formation of daudint; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases popular to the scalp, keeping It cool, chain, and soft, under which conditions diseases of the scalp and hair are impossible. As a Dressing for Ladies' Hair.

The Vices is incomparable. It is coloress, contains neither oil nor dye, and will not soil white cambrie. It buparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence, Dr. J. C. AYER & CO., Lowell, Mass.,
